

LG DUALCOOL Standard Plus (S12ET)

Efficiency Meets Intelligence: The 3.5kW Climate Solution

Why Choose the LG S12ET?

The LG DUALCOOL is engineered to provide a perfect indoor climate while minimizing energy costs.¹ With its sleek, modern design and advanced filtration, it's more than just an air conditioner—it's an upgrade to your home's air quality and comfort.

Key Features at a Glance

- **DUAL Inverter Compressor™:** Unlike standard compressors, this unit constantly adjusts its speed to maintain desired temperatures, resulting in **up to 70% less energy consumption** and **40% faster cooling**.²
- **Built-in Wi-Fi (LG ThinQ):** Control your home's temperature from anywhere.³ Turn on the AC before you leave the office so your home is perfect when you arrive.
- **Active Energy Control:** Take charge of your bills.⁴ Choose from four levels of energy consumption (100%, 80%, 60%, or 40%) depending on how many people are in the room.
- **Auto Cleaning:** Prevents the formation of bacteria and mold on the heat exchanger, providing a more pleasant and comfortable environment.⁵
- **Gold Fin™ Protection:** The outdoor unit features a specialized coating that protects the surface from corrosion, extending the lifespan of the system in harsh weather.⁶

Technical Performance

Feature	Performance Specification
Cooling Capacity	3.5 kW / 12,000 BTU
Heating Capacity	4.0 kW / 13,600 BTU
Energy Rating	A++ Cooling / A+ Heating
Noise Level	19dB (Silent Mode) – Quieter than a library
Refrigerant	Eco-Friendly R32

Advanced Comfort

"Whisper Quiet Operation"

Designed with a unique skewed fan and DUAL Inverter Compressor, the S12ET eliminates unnecessary noise for smooth operation that you'll barely notice.

The Smart Advantage

With **Google Assistant** and **Amazon Alexa** compatibility, you don't even need the remote. Simply say: *"Hey Google, set the AC to 22 degrees."*

Ready to Upgrade?

The LG S12ET is the ideal choice for bedrooms and living areas up to **35-40 \$m^2\$**.

- **10-Year Warranty** on the Inverter Compressor.
- **Fast Installation** by our certified HVAC team.
